SECOND DRAFT:
Prepared by the Legislative Council staff for the Information Technology Committee
June 2012

- 1 A BILL for an Act to create and enact a new section to chapter 54-59 of the North Dakota
- 2 Century Code, relating to information technology projects and the creation of executive steering
- 3 committees for information technology projects.

4 BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

- 5 **SECTION 1.** A new section to chapter 54-59 of the North Dakota Century Code is created and enacted as follows:
- Large-scale information technology project contracts Appointment of executive
 steering committees for large-scale information technology projects.
 - For the purposes of this section, a large-scale information technology project is a
 project estimated to cost one million dollars or more to be implemented by an
 executive branch agency, excluding institutions under the control of the state board of
 higher education.
 - 2. All large-scale information technology projects must be jointly administered by the agency contracting for the project, the department, and the office of management and budget. All large-scale information technology projects must comply with the statewide policies, standards, and guidelines developed under section 54-59-09. The procurement officer and primary project manager responsible for a large-scale information technology project must meet the qualifications established by the department and the office of management and budget.
- 20 3. Pursuant to section 54-59-05, an agency shall submit requests for a large-scale
 21 information technology project to the department prior to preparing a solicitation. The
 22 department and the office of management and budget, in consultation with the
 23 attorney general's office, shall assign subject matter experts to assist the agency with
 24 the procurement, contract negotiation, and contract administration. The agency shall

- coordinate with the department and the office of management and budget, in

 consultation with the attorney general's office, to develop the solicitation, contract, or

 agreement and any amendments. Final documents must be approved by the agency,

 department, and office of management and budget, in consultation with the attorney

 general's office, prior to submission to the executive steering committee.
 - 4. The project sponsor shall convene an executive steering committee for each large-scale information technology project. The executive steering committee must consist of the director of the office of management and budget or a designee of the director, the chief information officer or a designee of the officer, the head of the agency contracting for the project or a designee, the project sponsor, and a large project oversight analyst designated by the chief information officer. The executive steering committee shall monitor the overall status of the project, review project decisions, and approve final documents. Project decisions relating to contracts, budget, schedule, quality, scope changes, and any project decision declared by a member of the committee to be a major project decision requires at least four affirmative votes.
 - 5. No agreement or contract, including an amendment, revision, or scope change, for an executive branch information technology project estimated to cost one million dollars or more may be entered unless signed by the head of the contracting agency and the chief information officer.
 - 6. The department shall provide a report to the governor at least quarterly regarding the status of each large-scale information technology project that is approved under this section but not completed.
